## Nerve Slavery

It is present-day conditions—heaping burdens of work upon the nervous system that tell the story—premature breaking up of health.

It tells why so many men and women, who so far as age is concerned, should be in the prime of health, find themselves letting go of the strength, the power, the vitality they once possessed. It is because that great motor power of the body, nerve force, is impaired. Neither will the heart, the brain, the liver, the kidneys, the stomach act right without their proper nerve force supply. Let any organ be lacking in this essential and troubles begin—some of them are:

- Throbbing, palpitating heart.
- Sleepless nights.
- Sudden startings.
- Morning languor.
- Brain fog.
- Inability to work or think.
- Exhaustion on exertion.
- Fragging appetite.
- Digestion slow.
- Food heavy.
- Daily excited, nervous, irritable.
- Strength fails.
- Loss of flesh and muscular power.
- Scattered melancholia.

The above is the genuine package of Dr. A. W. Chase's Nerve Pills, are sold by dealers or Dr. A. W. Chase Medicine Company, Buffalo, N. Y.

## ASYLUM INQUIRY

The Investigation at Kankakee Takes a Sensational Turn.

## ACCUSED OF PERJURY

Witness Who Gave Damaging Testimony Is Arrested—Acquitted At Preliminary Hearing.

Is Rearrested On Same Charge—the Affair Stirs Up Unfavorable Comment—Intimidation Charged.

Kankakee, Ill., Aug. 13.—Trustees of the Kankakee insane asylum diverted the course of the inquiry in the conduct of the institution yesterday by twice arresting a former attendant who had testified against them by becoming defendants in a suit for \$50,000 brought against them by that same attendant, Harry H. Ball, who had accused Trustee Murphy of drunkenness and impartiality, was arrested at 2 a. m., charged with perjury. He was tried yesterday afternoon and acquitted for "lack of evidence," and afterward he was again arrested on the same charge before another police justice. In the meantime Ball has begun a suit, claiming \$50,000 damages from Trustees Small, Murphy and Powell, and Colonel Buckingham, their attorney, for alleged conspiracy for false arrest.

## WISCONSIN MAN'S CRIME

Waylaid and Murders His Daughter—No Cause Assigned.

Woodland, Wis., Aug. 13.—Sheriff Solon yesterday placed under arrest Albert Ullman, the father of Ida Ullman, who was shot from ambush on Aug. 3 near Neosho. He at once confessed that the shooting was done by him. On the Saturday before the shooting Ullman drove to Oconomowoc, pretending to leave his team there and take the train to Milwaukee, as was his custom. Instead, he walked back to the place where his daughter would have to pass. He fired the shot, returned to Oconomowoc and came home with his team, after the girl had been taken home. Ullman was seen by neighbors on his way to Oconomowoc after the shooting. This, coupled with utterances made by him, led to his arrest. He is now in the county jail. No reason for the act can be learned.

## Chancellor Andrews On Divorces.

Chicago, Aug. 13.—E. Benjamin Andrews, chancellor of the University of Nebraska, in a lecture upon "The Foe of Marriage," at the University of Chicago yesterday declared that the American divorce laws are so loose that they are a curse, both upon parents and their children. Professor Andrews also claimed that a bachelor has no place in the social scale and that to marry a consumptive is a crime. Advice to persons intending marriage was plentiful in Dr. Andrews' lecture. "Hasty marriages do more evil to the marriage relation than anything else," he declared. "Early marriages ought to be discouraged. No one should marry before the age of twenty-one—twenty-five is the best age. 'The ease with which divorce is secured in this country is the greatest foe to marriage, and, in fact, creates divorces which otherwise would not have been thought of. The injustice done to the children by a divorce in the family is so great that no language can do justice to it. No one who has ever been divorced can pass through the experience unharmed. With it goes the best possibilities of a life of service to this world never to return.'"

## Sheriff Kills His Man.

Devil's Lake, N. D., Aug. 13.—Last night at Edmore, this county, Carl Okelson, with three other men from Walsh county, went to a "blind pig" run by Frank Pelke. When Pelke opened the door he shot Okelson in the face, the bullet lodging in the back of the neck. Deputy Sheriff George Hanson and Constable John Johnson, with a warrant, went to arrest Pelke. Hanson ordered Pelke to throw up his hands and Pelke drew a gun, but Hanson was too quick and shot Pelke in the left side. Pelke died an hour later. Okelson is not expected to live.

## The Cecil Rhodes Scholarships.

London, Aug. 13.—The trustees of the will of Cecil Rhodes have appointed George Robert Parkin, principal of Upper Canada college, Toronto, to prepare a plan for the allotment of the scholarships provided for in the will. The Times, referring editorially to the appointment of Mr. Parkin, says the trustees of the will are to be warmly congratulated upon this important step, and that they could hardly have found an interpreter of Mr. Rhodes' intentions better qualified than is Mr. Parkin to put them into practical shape.

## McKinley Memorial.

Chicago, Aug. 13.—The Illinois auxiliary of the McKinley Memorial association reported that the fund of \$50,000 asked of the people of Illinois had been raised. The fund consists of over 50,000 subscriptions, and counting the individual children who sent their pennies through schools, the contributors in Illinois run into the hundreds of thousands.

## PATRICK H. MCCORMICK

The Man Who Thinks He Can Defeat Congressman Griffith.

Indianapolis, Aug. 13.—P. H. McCormick of Columbus, who will in all probability oppose Congressman Marion Griffith for the Democratic nomination for congressman from the Fourth district, was in Indianapolis yesterday conferring with political friends. It is believed that the announcement that McCormick will be in the race will bring out a large field of starters. A formal announcement of this is expected in the near future.

Judge Willard New of Mount Vernon; Nicholas Filbeck, Nicholas Cornet and L. E. Slack, are also expected to announce their candidacy. The Fourth is considered a safe Democratic district, and the man who gets the nomination on the Democratic ticket is considered almost as good as elected.

The apple crop in Indiana this year will only be about 40 per cent of what it was in 1897, the big apple year, according to the figures of the state statistician, and the quality will be only poor to fair. Climatically considered, Indiana is a far better apple-raising country than Illinois, but it does not even "also run" with Illinois for crops of the luscious fruit. This state only raises about half as many as her sister across the Wabash. In 1897, 637,740 bushels of apples were raised in Indiana. The principal reason the crop this year will only be about 40 per cent of that amount is that the farmers of the state take little interest in apple growing. Few of them have orchards of more than a few acres, whereas if they had orchards of fifteen, twenty-five or fifty acres, they would give the fruit unlimited care, and the result would be big apple crops. But your Indiana farmer will not raise anything other than wheat and corn these days, the statistician says, and there is every reason for his attitude.

Announcement is made that the state conference of charities and corrections will meet in Indianapolis about the middle of November, the date to be definitely settled in the next few days. It is expected that the convention will attract about four or five hundred people interested in the care of unfortunate and felons, from over Indiana. G. A. H. Shideler of Marion, former warder of the Michigan City state prison, is president of the association, and Charles S. Grout, director of organized charities in Indianapolis, secretary. It is the intention of those in charge of this meeting to make it memorable. Prominent specialists from other states will be requested to attend and deliver addresses on the subjects of prison and charitable institution reforms. An effort will be made to get a half rate on all railroads for the meeting.

The state board of taxation is beginning to see the end of this year's session. The board was in executive session all yesterday afternoon, considering the appeals from assessments of different county reviewing boards, which it has been listening to for some time. The members expect to have completed their work along this line by Monday night, when there will be another executive session, and Tuesday some of the decisions will in all probability be announced. The cases which are awaited with probably more interest than any the board has heard, are those involving the assessments on the banks. The board will spend another ten days listening to appeals from its own decisions, reviewing the testimony, etc. It will in all probability adjourn about Aug. 28.

Charles Welman, who enters the lists against Congressman Miers for the nomination in the Second district on the Democratic ticket, was also in Indianapolis yesterday. Welman and Miers have become reconciled since Miers announced that he is friendly to the Chicago platform, and the Sullivan Times. Welman's paper, has ceased to fight him. Welman declares that Miers will be elected in a canter.

O. P. Lewis of Covington, who is a candidate on the Republican ticket to represent Fulton in the next legislature, came to Indianapolis yesterday with E. H. Nebecker to confer with Senator Fairbanks. It is supposed that Lewis promised to support Fairbanks if he is elected.

## Republican Legislators to Meet.

Sandusky, O., Aug. 13.—The gathering of the Republican members of the legislature at Cedar Point in this city Aug. 14, 15 and 16 on invitation of Representative Guerin of Erie, promises to have a more important bearing on the work of the general assembly at the approaching extra session than at first supposed. Of the sixty-seven Republican members of the lower house, fifty have accepted the invitation, and all the Republican members of the senate except three. The meeting opens with a clam-bake Thursday afternoon and there will be a complimentary banquet Friday night. The Guerin code bill will be the principal topic of the speeches and discussion.

## The Quarry Trouble.

Bedford, Ind., Aug. 13.—The quarry strike situation here looks favorable to an amicable settlement, and the probabilities are that the trouble will be adjusted to the satisfaction of all concerned. Labor Commissioner McCormack met the operators at the quarries and several conferences were held. Although unofficial, it is understood that the basis of settlement is 17½ cents per hour. This will make the pay average about the same as before, including pay for noon hour.

## STILL A MYSTERY

Whereabouts of Bartholin Puzzling Chicago Police Department.

## NOT BEING SHIELDED

By a Secret Society—Police Believe Murderer Is Still in the City But Are Without a Clue.

Stories From Various Points As to His Presence Are All Incorrect.

Chicago, Aug. 13.—The idea that Bartholin, the supposed murderer of his mother and sweetheart, is being aided by a fraternal society in his escape, was shattered last night. Bartholin had been a member of the Mutual Protection Association, but was expelled July 1. The officers of the organization emphatically denied that they had had anything to do with Bartholin, and declared they would not protect him under any circumstances, were he still a member. Thompson, the boarder at the Bartholin house, was again put through the "sweating" process yesterday, but nothing additional was learned from him. He maintained that the story told by him when first asserted was the truth and that he knew nothing about the crime. The police do not credit Thompson's tale, and he is still under arrest.

At midnight last night the police declared that they had not a single reliable clue to the whereabouts of William Bartholin. During the day Bartholin was reported from the following places, and in nearly every instance the identification was positive: St. Joseph, Mich.; Kenosha, Wis.; Elkhart, Ind.; Doris, Ia.; Guthrie, Okla. The police are of opinion that Bartholin is still in Chicago, and that if he has left he has gone to Indian Territory, where he has friends.

## Tithers Convention at Winona.

Warsaw, Ind., Aug. 13.—The National Tithers convention opened at Winona yesterday. The welcoming address was given by Thomas Kane of Chicago, who was chosen to preside during the conference. Rev. F. O. Ballard of Indianapolis, whose signature appeared among twelve others from various parts of the country to the call for the first national gathering, outlined the objects of the meeting. He stated it was an inaugural effort toward getting all churches through out the country to adopt a tithing system or Wesleyan chapel movement. If the system is adopted, the speaker said, there would be plenty of money to evangelize the world on a scale far exceeding the dream of the most ardent Christian worker and foreign mission advocate. Interesting addresses yesterday afternoon were delivered by Rev. E. C. Ray of Chicago and Mrs. Frank E. McCray of Indianapolis, the latter talking on the third crisis of missions. Delegates are present from all sections of the country. The denominations most numerous represented are the Baptist, Presbyterian, Christian, Methodist Episcopal, United Brethren, Progressive Brethren, and Congregational.

## Kansas Monument Unveiled.

Junction City, Kan., Aug. 13.—At a point a mile and a half south of Junction City yesterday a monument was unveiled for the Quivira Historical society in honor of Coronado's expedition in 1541. The location was decided upon on several years ago by a number of leading archaeologists of the United States as being the approximate center of the Quivira, the territory which Coronado visited in his march from Mexico in search of gold. The monument, which is eighteen feet high, was erected by Captain Robert Henderson on his farm.

## Cost of Teamsters Strike.

Chicago, Aug. 13.—An effort will be made by the business men of the city to prevent the teamsters of the city from interfering in strikes called by other labor unions. Every business man in the city who transports any amount of goods by wagon will be invited to join the organization. The disgruntled which followed the strikes of the packing house drivers and the freight handlers cost the business men of this city \$8,000,000, and to prevent anything more of the kind the "Associated Teaming Interests" has been formed.

## Sheriff Kidnaps a Man.

Evansville, Ind., Aug. 13.—Thomas J. Clark, arrested here as a vagrant and later recognized by Sheriff King of Clarksville, Ark., as an alleged member of a gang that robbed a bank at Clarksville and killed the sheriff of the county, was kidnapped from this state yesterday by King when he took with him Charles Johnson, alleged to be another member of the gang, and for whom King carried requisition papers. Clark was made to believe that the papers were served on him as well as Johnson.

## English Singers Will Tour America.

London, Aug. 13.—The choir which sang at the coronation of King Edward in Westminster Abbey last Saturday sailed yesterday from Liverpool to make a tour of the United States and Canada.

## R. OF P. CONVENTION

Formally Opened At San Francisco Yesterday—Large Attendance.

San Francisco, Aug. 13.—The biennial convention of the Knights of Pythias was formally opened yesterday in the Palace hotel. Nearly 150 delegates were seated when Supreme Chancellor Ogden H. Fethers rapped for order. There were few vacant seats, and these will be filled before the second day's session opens. The absent supreme representatives have all telegraphed that they will be here as soon as the delayed specials are able to move. After the delegates' session was called to order Supreme Representative Walker C. Graves of California, in behalf of the chairman, Charles L. Patton of the executive committee, delivered a welcoming speech. Governor Gage sent his regrets at not being able in person to welcome the visitors, but sent a message which was read by Myron Wolfe. Supreme Chancellor Fethers responded in a humorous speech to the welcome of the governor, assuring him that the knights would make the best of their stay in San Francisco. The large number of visitors who had witnessed the opening scene then withdrew and the supreme lodge went in secret session.

## Big Harvester Combine.

Trenton, N. J., Aug. 13.—The International Harvester company with an authorized capital of \$120,000,000 was incorporated here yesterday. The company is authorized to manufacture harvesting machines and agricultural implements of all kinds. It is understood that among the concerns interested in the syndicate is the McCormick concern of Chicago. The articles provide that all of the \$120,000,000 capital stock shall be common stock until it shall be decided to increase the company capital beyond those figures. In that event the \$120,000,000 is to become preferred stock and the additional capital is to be common stock.

## Memorial Resolution Adopted.

Cleveland, O., Aug. 13.—At a special meeting of the Lake Carriers' association yesterday resolutions were adopted on the death of Senator James McMillan of Michigan. The resolution dwelt especially upon the late senator's faithful work in behalf of lake shipping. The flags on all vessels of the association will fly at half mast until after the funeral.

The Scottsburg Journal will be issued daily for the next two weeks, or until after the Scott county teachers' institute which occurs next week.

The date for the republican county convention has been fixed for September 20. The date is well chosen since this is the time for the formal opening of the campaign in the state.

If any credence is to be placed in rumors about Prosecutor Hudson has more trouble ahead than he ever suspected and from quarters least expected, Hudson is conceded to be a weak brother even by his own party managers.

BRYAN says that the reorganizers are the very men who bored holes in the bottom of the old democratic ship in 1896 and now they want to take charge of the old disabled vessel because they know where the holes are. He is afraid to trust them and has advised his followers accordingly.

If possible the contract for locating that new factory, which has claimed so much time and attention recently, should be closed up at once. The opportunity to bring this industry here is at hand and if it is possible to meet the conditions now is the time to meet them.

THERE is an unusual amount of typhoid fever in the state. The prevalence of this dreaded disease should prompt the people generally to clean up about their premises if they have not already done so. Much sickness can be prevented by observing sanitary rules.

A BROWN county farmer went up against some lamp swindlers and it cost him \$450. Why do men put their signatures to papers to accommodate irresponsible strangers? The men who read their local papers are warned against just such fakers over and over and therefore they are prepared when the fakers comes around. The swindlers hunt out the men who take no papers.

**The Honorable Board.**

Sam Rawson occasionally said a good thing, and one of these occasions chanced to be the town meeting. The people of Sam's village could not understand how the money appropriated for the roads had vanished with such poor results.

A stretch of road running past Sam's house was in notoriously poor condition, although Sam declared that he had paid liberally to have it put in good order, and there was general interest when Sam rose to make his statement before the selectmen.

"I'd just like to say one thing," he drawled, heedless of the fact that he had interrupted an indignant neighbor. "I don't want to make any fuss, but I'd just like to ask the honorable board of highwaymen."

That was as far as he could get. A roar of laughter swept over the town meeting and showed its effects in the red faces of the "highwaymen." Youth's Companion.

**Forever Dry.**  
There is a youngster in Grand college who combines the poetic instinct with a keen sense of humor. He is not a close student—in fact, he regards books as instruments of torture. One of the professors picked up a textbook belonging to him the other day and found on the fly leaf this bit of verse, which no doubt expressed the student's opinion of it:

Should there be another flood,  
For refuge hither fly,  
And should the whole world be submerged  
This book would still be dry.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHENEY & CO., Toledo, Ohio.

### Question Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers' and grandmothers' never thought of using anything else for indigestion or biliousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. You can get this reliable remedy at The Peter Drug Co. Regular size 75 cts. Get Greene's Special Almanac.

Tells How Hospital Physicians Use and Rely upon Lydia E. Pinkham's Vegetable Compound.

most distressing cases of inflammation and ulceration of the ovaries and womb. I have known that doctors used Lydia E. Pinkham's Vegetable Compound when everything else failed with their patients. I have advised my patients and friends to use it and have yet to hear of its first failure to cure.

"Four years ago I had falling of the womb from straining in lifting a heavy patient, and knowing of the value of your Compound I began to use it at once, and in six weeks I was well once more, and have had no trouble since. I am most pleased to have had an opportunity to say a few words in praise of your Vegetable Compound, and shall take every occasion to recommend it."
